HOLDEN NOMINATED BY THE VERMILION LIBERALS YESTERDAY

Convention Unanimous and His Election Assured—Resolutions Adopted

James B. Holden was nominated yesterday as the Liberal candidate for Vermilion constituency. This nomination virtually means the election of Mr. Holden by acclamation, as the Conservatives have declared their intention of not contesting the constituency. The convention was a very representative one delegates being present from every part of the constituency except Beaver Lake, and they were delayed by the local train being several hours late, but Mr. McCausley wired five proxies for Mr. Holden.

The meeting was called to order by Vice President Holden. He asked the meeting to elect a chairman and Mr. Chas. Gordon was selected. Mr. W. A. Brimicombe being elected secretary. The first business was the election of a president to fill the vacancy caused by the death of Mr. R. G. Dinwiddie. Mr. Harry Bowtell of Vermilion was unanimously chosen.

The call for nominations brought two names Mr. J. B. Holden, proposed by J. A. McDougall and Samuel Engleish, and Mr. Rice Sheppard, proposed by Mr. McCallum. The latter nomination received no seconder, but as Mr. Sheppard seemed to desire a vote to be taken a ballot was proceeded with, and, without counting the proxies wired in, the vote was Holden 26, Sheppard 1. On motion of Messrs. Hunter and Sheppard the nomination was made unanimous.

Mr. Holden was called upon and very briefly thanked the convention for the honor conferred upon him and declared his intention of giving the best possible service to his constituency. Duncan Marshall was then called upon and addressed the meeting at some length upon the political issues of the day, reviewing the work of the past session of the legislature.

The following resolutions were un-

animously adopted:

"Resolved, that the Vermilion Liberal Association in convention assembled desires to express its high appreciation of the past services rendered the Association by its former president, the late R. G. Dinwiddie, and extends its sincere sympathy to his widow and family in their sad bereavement."

"Resolved, that this Association expresses its utmost confidence in the Provincial Government as conducted by Hon. A. C. Rutherford and his colleagues. Their work in the recent session in passing the Railway Taxation Act and in setting aside an appropriation of \$500,000 for roads and bridges are especially worthy of our commendation and our support in this election."

"Resolved, that this Association expresses its confidence in the government of Sir Wilfrid Laurier and especially in the administration of western affairs under the direction of Hon. Frank Oliver, Minister of the Interior."

The meeting closed with cheers for the candidate and the Government.

HONORS FOR CANADIANS.

Three young Canadians have recently received honors.

Mr. W. E. Harper, of Grey County, Ont., received the gold medal of the Royal Astronomical Society and has been appointed assistant in the Dominion Observatory, Ottawa.

J. Carlyle Moore, whose home is at Red Deer, Alta., is the first Canadian to receive the degree of Doctor of Law in the University of Chicago. He will practice in Canada.

Mr. David C. Thompson, a native of Prince Albert, Sask., stood second out of a class of 36 in the recent examinations of the Florida state medical board.

LACOMBE CHILD BURNED TO DEATH

House Took Fire Supposedly From Sparks from a Steam Dredge

Lacombe Globe: A shocking tragedy occurred on Wednesday afternoon last, at the home of R. M. Whitecotton, five miles north of town, by which his 17-month-old daughter lost her life. The little girl was asleep upstairs in the house, and Mrs. Whitecotton was busy downstairs when she was startled by hearing the cries of the little one, and rushing upstairs, discovered the place in flames. She was unable to render any assistance and at once sought help from the men at work on the government dredge near by. Mr. H. A. Murphy, of Lacombe, who happened to be close to the house at the time, made a desperate effort to rescue the child and dashed into the flame-filled room, but was forced to come back. His hair, eyebrows and moustache were badly scorched in the attempt. Others made the attempt with like results.

The origin of the fire will never be known, although it is thought that sparks from the steam dredges working near the house caused it. After the fire was extinguished the charred remains of the little one were recovered.

TRAMP JUST MISSED LYNCHING

Police of Ontario City Had to Send Him Out of the Town

Stratford, Ont., July 13.—A tramp who attempted to enter by assault a nine year old daughter of Frank Iyer, was threatened with lynching today before the police sent him to London for safe keeping. The girl, Wilfred Iyer, was crossing a bridge when she was stopped by a man who produced a bottle from his pocket and forced her to drink part of its contents, telling her if she did not he would kill her. He carried her beneath the bridge, but a grocer's rig appeared and the man ran off. The alarm was given and Chief Wilson arrested the man in a barber shop where he went to have his appearance changed. When searched the fiend had a bottle labelled "paragoric" concealed in his pocket. He admitted his guilt and was sent to London. The girl's clothes were torn and soiled. The news soon spread and there was great excitement, for the crowd had a rope ready to hang him.

BOUGHT FAST PACER

(Special to the Bulletin)
Winnipeg, July 13.—A syndicate of local horsemen has purchased the wonderful pacing mare, The Broncho, 2:03 3/4, the sensation of last year on the Great Western Circuit, and will race the mare in the south this season. Joe Carson is at the head of the syndicate and he is now in Chicago closing the deal which was arranged by telegraph. Charlie Dean, owner of The Broncho, accepted the offer of the local syndicate on Thursday, and Carson immediately left for the south to complete the deal. Broncho will be entered all through the Great West Circuit and will meet Hazel Patch, 2:02, and Cy Gregory's fast stallion at the Minnesota exhibition at Hamline. With Harold H., 2:03 3/4, Winnipeg now possesses the distinction of owning the three fastest horses in Canada. The Broncho will not be raced in Canada this season.

SOUNDINGS FOR THE C.P.R. BRIDGE

Engineers at Work Running Survey Lines and Making Soundings

The first work in connection with the building of the C.P.R. high level bridge from Edmonton to Strathcona is now in progress. The other day a party of C. P. R. surveyors arrived in Strathcona and are camped on the south side of the Saskatchewan just west of Walters' mill and yards. They are the forerunners of the construction gangs and grading outfits, and are here for the purpose of taking soundings of the river and running the survey lines through from bank to bank. The party consists of four bridge engineers, in charge of J. E. Hesketh, of the chief engineer's department, Winnipeg.

In taking the soundings of the river, Mr. Hesketh secured the use of the steamer from Walters' mill and took the soundings in one hour. In this he was fortunate, as it would have taken two or three hours to have completed the work had it been done from a barge.

The soundings as taken showed the river to be from 10 to 12 feet maximum depth. Mr. Hesketh is also securing the record height of the river during the flood in 1899, in order that provision may be made in building for the protection of the piers from similar dangers in future.

Yesterday and today the work of picking up the former survey lines and laying cross sections was carried on.

The survey line leaves the Strathcona side of the river at a point a few hundred feet east of the tannery, and strikes the Edmonton side just west of the Hudson Bay fort, crossing the C. N. R. above the gravel pit, and touching the summit of the hill fifty or sixty feet west of Ninth street.

Plans for the bridge are being prepared at the head office in Montreal, and it is expected that when Mr. Hesketh and his party have completed their work grading outfits will be rushed to the site, and the grading on the hills commenced at once.

LIGHTNING STRIKES HALL

One Hundred Affected by the Shock
One Killed

(Special to the Bulletin)
St. John, N.B., July 13.—While members of the Welford Orange Lodge, and friends were closing a celebration of July 12th by a dance in the new hall at Welford, the building was struck by lightning. One man, L. D. Low Nason, aged 30, was killed, a young lady was terribly burned about the hips, twenty other persons were rendered unconscious and one hundred were affected by the shock.

THE MINNESOTA REGATTA

(Special to the Bulletin)
St. Paul, July 13.—In one of the most spectacular races ever pulled off in the west, Duluth Junior noded in ahead of Winnipeg and the Minnesota boat club in the final event of today's racing in the Minnesota-Winnipeg regatta at Lake Minnetonka. Fort William's four-oared crew sprung the surprise of the afternoon by coming in easy first in the senior four-oared race. Winnipeg and Minnesota fours had a pretty fight for second place, but the Winnipeg fours forged to the front on the last few strokes and came in for second honors. Frank Carruthers of Winnipeg, pulled away from Sam Mayers of the Minnesota boat club in the junior single sculling race, and finished far in the lead.

C.N.R. GRADING ALMOST DONE

Track Laying Gang will Soon Begin Work on Whitehorse Lake and Morinville Branches

The grading on the White Horse Lake branch of the Canadian Northern has been progressing rapidly during the summer, although considerable delay has been caused by the heavy rains. The contractors, however, are rushing the work, and the grading will probably be completed to the north end of the lake in a couple of months. Malcolm McCrimmon, who took up the grading this spring from a point about twenty miles from the city, has been meeting with great success in the work, and has reached a point about eight miles of the lake.

The White Horse Lake branch runs almost due west of Spruce Grove, from Spruce Grove the line runs in a southerly direction for several miles, and then again turns north. The railway touches the White Horse lake near its eastern extremity and skirts the north shore, running up to the west end of the lake. The country traversed is rolling, with a few sloughs and swamps, heavily wooded in parts, but generally is good farming country.

It is expected that steel will arrive in the city shortly, when the steel-laying train will again make its appearance, and the rails will be laid on the western branches. The steel last fall was laid only a mile or so beyond the city.

The grading has been completed on the northern branch to Morinville, and in all probability there will be no delay in the laying of the steel on that branch.

BRANDON MAN STILL MISSING

Supposed Murderer of Georgina Buron Left No Traces

Winnipeg, July 12.—The inquest on the body of Georgina Buron, who was found dead under the most mysterious circumstances in a room in the Imperial hotel, was adjourned last night after the taking of a mass of evidence from the hotel people and relatives. The adjournment was made in order to take medical evidence which is not yet given regarding the state of the body at the post mortem. Such evidence as is given apparently incriminates her missing male companion, H. Wilson Todd, of Brandon, who, it appears, frantically called for spirits at the supposed time of her death. Groans were also heard coming from the room in question. No traces of Todd have yet been discovered.

RESIDENCE BLOCKS BURNED

(Special to the Bulletin)
Stockholm, July 13.—Fires destroyed 12 residence blocks in the southern part of the city. Loss \$710,000.

PELL ASLEEP ON THE TRACK
(Special to the Bulletin)
Tyndal, Man., July 13.—This morning a westbound freight struck and killed John Bennett, 21 years of age, a few hundred yards west of Tyndal station. The man was an employee in the Gascon quarries, and had walked two miles east of town to sit up with a sick brother. He left for work at 4 a.m. and apparently fell asleep on the track as the body was lying across the rail. The coroners jury at Selkirk returned a verdict that death was accidental.

CANADIAN TEAM WON THE KOLAPORE CUP

Carried off the Famous Trophy at Bisley—Nine Points to the Good

(Special to the Bulletin)

Bisley Camp, July 13.—The Canadians captured the Rajah of Kolapore's Imperial challenge cup today in competition with crack teams from various parts of the Empire. The competition was for teams of eight from volunteer corps of the mother country, and colonies and was shot for at three ranges—200, 500 and 600 yards—Seven shots at each. Besides the cup a special commemorative silver bowl is given by the N.R.A. to each member of the winning team. The Canadian team in the match is Sergt-Major Cavan, 50th artillery, Victoria; Staff Sgt. Hayhurst, 13th Regiment, Hamilton; Staff Sgt. Kerr, 48th Highlanders, Toronto; Lieut. Semple, 78th Truro N.S.; Pte Smith, G. G.F.G. Ottawa; Capt. E. Skelton 91st Highlanders, Hamilton; Corp. W. H. Youhill, 90th, Winnipeg.

In the Steward challenge at 500 yards

Staff Sgt. G. Mortimer put up 34 out of a possible 35. The total scores for the match were:—Canada, 729; Mother Country, 729; India 705; Malay States, 704; Guernsey, 632. The Canadians lead at every range with the exception of the 200 range where the Mother Country beat them by a single point. The Rajah of Kolapore's Imperial cup was given in 1871 by H. H. the late Rajah of Kolapore and is for teams of eight comprising one team of volunteers from the Mother Country, one team from the militia local forces or volunteers from Canada, Australia or from any British protectorate or dependency or from any group of such colonies, protectorates or dependencies, one team from members home-on-leave of the Indian army or of any of the covenanted or uncovenanted Indian services or Indian volunteers or all four. It is shot for at three ranges, 200, 500, and 600 yards, 7 shots at each target.

EDMONTON WON FROM CALGARY

Put It Over the Southerners by a Score of 9 to 7 Last Night

(Special to the Bulletin)

Calgary, July 13.—Edmonton defeated Calgary to-night in a baseball game which was not extremely good though exciting always. The score was Edmonton 9, Calgary 7. Though the game was close it should not have been close as Edmonton played a much better game both in the field and at the bat, but all the luck was with Calgary.

Edmonton got away with a good start, knocking Crisp out of the box in the second innings, after scoring 6 runs from 7 hits, including a triple by Winchester and one pass Mullin, who succeeded Crisp, did a little better. Calgary followed by four in the second half of the second innings, which were secured from two hits, two errors and a base on balls. In the fourth Calgary got three runs and led until the 7th, when Edmonton got three from a double city Dobson, and singles by Howard, Vining and Gleason. Vining pitched a good game but Grady had some difficulty holding him. Wiley again distinguished himself with the bat, making four singles out of five times up. Score:—R H E
Edmonton..... 9 14 3
Calgary..... 7 11 4
Edmonton will play Calgary again Saturday afternoon.

PREMIER RETURNS

FROM THE EAST

Satisfactory Arrangement of Matters
Between Federal and Provincial
Governments

Premier Rutherford returned to his home in Strathcona last evening and was at his office this morning, looking the picture of health. He was warmly greeted at the buildings and battled down to work at once. To the Bulletin he said his vacation had been a very pleasant one indeed. He had visited his old home and been very kindly received by the friends of his boyhood days. He went as far east as Montreal and spent a few days in Toronto and Niagara Falls. The premier says he never appreciated the beauties as he did on this trip. His former visits to Ontario had been made in winter, but this time he saw the old province to the best advantage and the crop prospects are excellent and the trees and forests were a beautiful sight.

The premier speaks highly of the work of Dr. McIntyre, M.P., during the session of the Commons and says that the member for Strathcona is making a name for himself.

Mr. Rutherford is well satisfied with the result of his business mission to Ottawa, the matters he had to arrange with the Dominion Government being well under way to a successful issue. He discussed the endowment by a land grant of the provincial university with Sir Wilfrid Laurier, and the Dominion Premier asked the Provincial Government to prepare a memorandum regarding the matter and have it presented to the Dominion Cabinet. Mr. Rutherford says that in all his negotiations he had the best possible support and assistance from Hon. Frank Oliver. The premier also arranged for copies of debates and public documents of the House of Commons, dating back to before Confederation, to be supplied to the provincial library here for reference purposes.

Mrs. Rutherford has remained in Ottawa and will return in a short time.

BUILDING PERMITS

The building trade continues brisk this month, though it will hardly total the amount of June, which was unusually large. Building consists mostly of dwellings which shows a steady and wholesome increase to the city's population. The following have been granted permits for dwellings so far during the month:

A. H. Bryenton, Kinistino avenue, \$1,500.
John Johnston, Syndicate, \$1,700.
David A. Smyth, Syndicate avenue, two dwellings, \$1,700 each.
A. J. McAlpine, Seventh street, \$3,600.
Peter S. McKay, Picard street, \$1,200.
James Williams, Ottawa street, \$800.
W. H. Allen, Sutherland street, \$1,800.
Richard Scott, Fifth, \$24,500.
W. H. Clegg, Ottawa, \$1,600.
S. Swanson, River street, \$1,600.
A. Evans, Syndicate, \$2,400.
M. H. Dewar, Sixteenth street, \$3,500.
Immigration, 7th, \$10,000.
J. A. Dalton, Seventh street, \$2,800.
Francis Taylor, Wilson street, two dwellings, \$1,600.
W. B. Poucher, Fifth street, \$2,200.
W. E. Erickson, Twelfth street, \$7,000.
Wm. McCarthy, Isabella, \$1,200.
Revlon Bros., College, \$2,500.

Newsy Items About the City

THE COAL SUPPLY RAN SHORT

The city is at present securing coal for the light and waterworks power house from three dealers. The contract for last year, held by the Mays Coal Co., expires the last of the month. The contract for the coming year has been given to the City Coal Co. During a temporary shortage this week fuel was also procured from the Edmonton Coal Co. The shortage is said to have been caused by a breakdown of the quarter hauling up the coal from the Mays Co's mine. Ordinarily the company would be responsible but they have already exceeded the amount called for by the contract. Early in the week, too, the miners at the diggings of the City Coal Co., the new contractors, walked out and this source of supply was cut off. Coal was procured from the Black Diamond mine to tide over the shortage and the trouble may probably be considered past.

SISTER SHOT HER BROTHER

Family Shooting Affray Among Seattle "Holy Rollers."

(Special to the Bulletin)

Seattle, July 13.—Geo. Mitchell, a youth who recently shot and killed Frances Edmond Greffield "a Holy Roller Prophet" and was acquitted of the charge on a plea of insanity was shot and killed yesterday by his sister Esther in the Seattle station. Esther Mitchell joined the "Holy Rollers" and was one of the most ardent of Greffield's followers. When her brother pursued the leader of the "Rollers" to Seattle and shot him in the street he pleaded justification that Greffield had deluded and wronged his sister. Mrs. Greffield bought the revolver for Esther.

BREHANT-SMITH

The marriage of Henry Frederick Brehant to Mary Smith was solemnized at the home of Mr. and Mrs. Geo. C. Mackay, Wednesday evening at seven o'clock. Rev. Dr. McQueen officiating.

The bride looked charming in a gown of cream tulle, trimmed with embroidered chiffon and ribbon and carried a shower bouquet of white bride's roses. She was attended by Miss Maud Brehant who was prettily attired in a gown of white organdy trimmed with valencienne lace. Charles McMurdo, cousin of the groom acted as best man.

Immediately after the ceremony a wedding supper was served in the dining room, the tables being decorated with streamers of white morning-glories and lilies. Many friends were present.

The bridegroom's gift to the bride was a handsome pearl brooch and chainette and to the bridegroom a pearl and opal brooch. The best man presented the bride with a set of silver knives and forks and the bridesmaid with a gold watch set with pearls.

The happy couple will take up their residence on Jasper avenue east where they will be at home to their friends after August 1st.

AT THE CHURCHES TO-MORROW

FIRST PRESBYTERIAN.—Corner Jasper and Third street.
 Dr. McQueen will preach at both services.

MEDCO GALL CH RCH, Methodist.—Corner College avenue and First street.

GERMAN BAPTIST.—Corner Maynard and Isabella street.—Rev. A. H. Haggart, pastor.

The pastor will occupy the pulpit both morning and evening.

ST. JOACHIM'S, Roman Catholic.—Tenth street south.
 Mass 8 a.m., High Mass 10.30 a.m., evening service 7 p.m.

RIFLEMEN GO SOUTH

Several members of the Edmonton Rifle Association will leave on this afternoon's train for Calgary, to attend the annual meet of the Territorial Rifle Association, which opens in Calgary on Tuesday. The party will consist of J. Carmichael, Geo. A. Reed, P. McIntosh, W. S. Weeks, W. Pierce, and J. McDonald. The ranges at Calgary have been put into splendid condition for the meet. On Monday the Edmonton men will put in practice on the long ranges, for which they have no opportunity at home, as the ranges here have not been extended to the thousand yards.

ATHLETIC MEETING MONDAY

The attention of the shareholders of the Edmonton Baseball Association, Limited, is called to the meeting which is to be held on Monday, evening at 8 o'clock in the office of Henry Fraser, the jur. buyer for McDougall & Scott. All shareholders are requested to attend.

SEVEN GIRLS DROWNED

(Special to the Bulletin)

Cedar Rapids, July 13.—Seven girls from 7 to 16 years of age were drowned yesterday in the Cedar River, three blocks from home while wading. The small child slipped into a deep hole and in trying to rescue her the six others were drowned.

THREE ITALIANS BLOWN UP

(Special to the Bulletin)

Chicago, July 13.—Three Italian laborers were killed and three badly injured shortly after midnight by a dynamite explosion under the house in which they lived at Bellwood. A dynamite shed was located 800 feet from house of the laborers and the feeling among the foreigners led to the use of dynamite.

NEW COAL COMPANY

TWO CRITICISMS

A few days since reference was made in these columns to an editorial attack by the Winnipeg Telegram on the grant for the Edmonton post office. That attack, it will be recalled, was made on the ground that the grant was so liberal that it indicated a patronizing attitude of the Minister of the Interior for the purpose of currying favor with the electors. A local contemporary now rises to assail Mr. Oliver because he has not sufficiently "patronized" Edmonton and in doing so betrays the post office grant as a matter of small credit to the Minister of the Interior. The local contemporary says in part:

"When it is remembered that Hon. Frank Oliver has set in the Commons as virtually Edmonton's member for years, it is not much to his credit that he has also done something for his town and has secured a grant for a public building that will facilitate the handling of mails for almost half the province of Alberta. It was time that the member for Edmonton gave proof that he was looking after the interests of his constituents as well as his own political preferment. A two hundred thousand dollar grant for a public building that will serve the convenience of a hundred thousand people does not go a long way to 'patronize' Edmonton's credit when it is about the only thing he has ever done as its parliamentary representative, secured for Edmonton."

Outside his constituency Mr. Oliver's opponents assail him for securing too much for Edmonton, inside the constituency they assail him for not securing enough for Edmonton. When the elections come around the people of the other western constituencies will doubtless be adjured to defeat the supporters of the Minister of the Interior because he grabs everything for Edmonton; while in this constituency they will be adjured to support the Minister of the Interior because he does not grab enough for Edmonton.

FAKIRS AT THE FAIRS

One of Calgary's aldermanic lights attended the Edmonton fair, and on returning to his native haunts delivered an oration to the police committee calculated to emphasize the peculiar virtues of the southern city as contrasted with the coquettish wickedness of Edmonton. The theme of Alderman Hunt was the gamblers at the fair, his argument that only a bluff was made at closing the games in Edmonton, the conclusion of himself and police committee that they should banish out at Calgary good and fast. With the text and conclusion there is no fault to find. The theme was a fitting one for an aldermanic assemblage; the conclusion, the only one to which such an assemblage is entitled to come in this age of the world. But when Edmonton is held up as an example of a city wholly given over to the wiles of the evil ones there is ground for at least a difference with Alderman Hunt of Calgary.

In Edmonton the games were in operation on the first day; they were

closed down the morning of the second day and stayed closed during the day; with the coolness native to their tribe the sharks opened up again the third morning but were given twenty minutes in which to close up shop. They did it within the time limit and stayed closed the remainder of the fair. This is a brief resume of the history of the fakirs in Edmonton last week. There is nothing in it to warrant Alderman Hunt proclaiming that "A big roar had been made and that the gambling had been stopped for a minute or two and the press announced that all had been stopped. But the next day it proceeded with unusual velocity. It was said in the north that some of the aldermen had pulled the chief of police in Edmonton off."

Neither is there more occasion for the alderman's assurance that "no alderman should pull the chief off in Calgary" and Alderman Pitman's corroborative remark that he did not think any Calgary Alderman would dare do so. As no one had suggested the probability of the aldermen doing so their unnecessary announcements read very much like the vociferous protestations of the small boy that he knows nothing of the whereabouts of the missing pie. However this may be the fairs of Calgary and Edmonton will not be kept decent by professions that "I am purer than thou" but by the determination of the authorities of each city to attend strictly to the elimination of the gambling features.

TESTING WOODEN PAVEMENTS

As the time is rapidly approaching when Edmonton will be required to face the street paving problem, the following from the Toronto News may be interesting:

"Minneapolis is laying a number of test squares of wood pavement under the direction of a representative of the forest service of the United States; and the lumber manufacturers from the north, west and south, have shipped in the material, which is being creosoted or tarred by local concerns by different methods, so as to make a thorough test. A car load of paving blocks of each of the following woods is being tested:—Long-leaf pine, Norway pine, jackpine, tamarack, birch, hemlock, Western larch, and red fir. These test pavements must not be confused with the old-fashioned round cedar block pavement, with its sponge-like quality of soaking up fifth and large spaces between the blocks to gather mud and dirt. These blocks are sawed into a rectangular shape, and they fit close together, in the street and their tendency to absorb liquid is prevented by the soaking they have received in boiling tar and creosote. When this closely set wood pavement was first tried, it was not chemically treated, and hence it exhibited a tendency to swell after every rain and raise up in lumps over the street in its efforts to force the curbstones apart. The new theory is that the creosoted block has absorbed all the liquid it can, and therefore offers no chance of entrance for the water of a passing shower. Hence it will not swell or become dislodged.

For these wood pavements it is claimed that they are smoother than granite, afford better footing than asphalt, are cleaner than macadam, are less noisy than brick, and in durability, when properly laid, compare favorably with any other class of pavement. It was stated by those in charge of these tests, to representative lumbermen, who were visiting Minneapolis a few weeks ago, when the first of the pavements were being laid, that a sample stretch of wood pavement in Chicago, which had been laid for some years, had shown from one-eighth to one-quarter inch wear, where granite blocks adjoining had worn over one inch. It is from wood pavements, but especially from those constructed of very hard woods, that Ald. Geary is now looking for a substitute for asphalt or brick and granite blocks on Toronto streets. While the tendency just now in England is to favor Australian woods, it seems reasonable that a country with such a variety of woods as Canada could find just as good materials at home, and this is what the Minneapolis experiment is likely to teach us. Toronto might do worse than try a similar experiment."

We don't ask you to buy

Westmount

Because it is near the G.T.P. yards etc. It may be that there are some people who are fond enough of coal dust and smoke, the rumbling of trains, the tooting of whistles and the ringing of bells for twenty-four hours every day, to want to live somewhere within half a mile of what are bound to be very busy railway yards but we believe there are some people who would just as soon live a little farther away.

We ask you to buy

Westmount

Because it isn't near the G.T.P. or any other yards Just put on your thinking cap, size up the situation and arrange to buy where the choice residential property can be had. The G.T.P. yards are going to prevent the city growing Northward. As it is bound to grow it must grow East and West. WESTMOUNT is undoubtedly the finest suburban property in the West End. Just outside the city limits on the St. Albert road—between the West end city park and the city.

Large lots \$100 up, 1-3 cash, balance 1 and 2 years, 7 per cent.

These lots will look cheap in a short time with \$100 added to the present prices. YOUR OPPORTUNITY IS NOW. DON'T MISS IT.

We will drive you out. See your regular agent or inquire of the owners.

EDMONTON OLD AND NEW

(By "Kit" in the Toronto Mail & Empire.)

Edmonton, reached after two days' swing along the Canadian Northern route. You can imagine with what interest we saw it, the great capital city of Alberta. Somehow in our dreams we had pictured Edmonton as a crude, a lonely place, rough and a bit uncouth. What an enlightenment! how small, and ignorant and humble one felt front to front with this eldest daughter of the great west! The old fur-trading post had developed into an active, a busy, a really great distributing centre. Its position is a strategic one as a manufacturing as well as a distributing centre. It is old. One thinks of it as Fort Edmonton, the ancient fur-trading post of the great west in the last century. It is beautifully situated and is the objective point of three railway systems. The Canadian Pacific and the Canadian Northern swing in there now, and the Grand Trunk Pacific is pushing toward the coast via Edmonton. What might be termed a boom is on there now; but it would seem to be a somewhat too steady movement for the application of such a hollow word as "boom". The whole west is booming like a great hive, but not in any unnatural or insecure way. Edmonton strikes you at once as a very substantial reality. The long, irregular main street fairly hums with business. American enterprises are keen in the place and Americans are well liked for their sharp business methods, their friendliness and the good citizens and settlers they make. The very women talk loud that is the centre word in Edmonton's dictionary. Corner lots are selling to-day at anywhere from twenty to thirty five thousand; lots along Main street compel a hundred dollars a foot. The city is spreading along its hills; the wooded drives are exquisite. Strathcona is across the river, bridged and twin with Edmonton. The great Saskatchewan swirls and eddies between.

The C.P.R. bridge between Edmonton and Strathcona will cost three-quarters of a million dollars; cars now switch over a branch of the Mackenzie-Mann system. Saw mills sing and the log booms tell their own story. The new Provincial Parliament Buildings will be erected on one of the lovely and splendid hills overlooking the current-bit Saskatchewan, on which no boat may swing. The Hudson's Bay Company, having built new and commodious stores, the little narrow old one round which lingers an edge of romance, doing western duty as a store-house. There are banks everywhere; an asphalted main street; good hotels, though rather a lack of really first-class boarding houses—although there are a few—and right here comes the opportunity for some capable women who have a little capital and are willing to work—Good boarding-houses and tea rooms are a want in Edmonton as they are throughout this great and busy west. Houses

are dear and scarce. Whole families are living in tents and waiting. They will not move on. They know a move or two better than that. They know that it is better to squat and wait right here in Alberta's proud capital till they can build or rent and jump into business with a keen grip on life, than to move on somewhere where issues are less sharp. "There are dangers" in Edmonton.

The presswomen met with a whole-hearted reception. There were carriages all day at their disposal. A magnificent uncheon of six courses was given by the "Westward Ho!" chapter of the Daughters of the Empire—More power to them! In conjunction with the officers of the board of trade. We were driven along shaded and beautiful roads, past the old fort, an oblong and palisaded enclosure, now lovely, but once big with its own history. We heard the saw mills humming—local mills cut from 15 to 20 million feet annually—we saw seven flour mills and one cereal mill in operation; we heard that the average yield of spring wheat on the crop of 1905 had been 24.29; and Winter wheat 24.51 bushels to the acre and we found these figures to be conservative. We were told about the climate. "No blizzards," said a relative who is living there, to me, "no storms, hardly any snow and yet the healthiest and most invigorating of climates." The city owns its public utilities. Electric lights, water works, telephone systems are owned and operated by the city. I am not looking, as I write, through my rose-colored glasses; there is no romance in this bald statement of facts as we found them for ourselves. Prosperity is writ large upon the metropolis of Alberta. Of a surety, he who runs may read. It is all so great, so big with life and doing, that one falls silent in the face of it. Enterprise and endeavor, grip, and hard sane work, how good it all was! What an atmosphere of wholesome living, of pluck and the taking hold of things, the "I Will!" the forcing of issues, the taking the world by the throat and shaking one's portion out of it—surrounded one! Words are thin and bleak—They are not big enough for one's expression, and there are not enough of them.

But the last thought will be of the beauty of Edmonton, of her history, her old story. We know she is the pivotal point and popular centre of her province towards which the immigrant wends his way; we know of her abundant water power, her ample timber, her fat and fertile soil; we know her as the fur-preserver of the world, but perhaps of all these things, we will remember longest, her welcome, her cultured women, her large-hearted and hospitable board of trade, pressmen, bankers and citizens, and above all, that warm and sincere hand-clasp—that grip of the west, which I yet feel upon my hand, and that affectionate and intimate welcome, which in a deeper way has reached into my heart and left its impress there.

ATTACKS MONROE DOCTRINE
A special to a New York paper from New Haven, Conn., says: In extending the Yale welcome to the American Institute of education at the opening of the national convention here last night, Prof. M. Wheeler of the history department vigorously attacked the Monroe doctrine and deplored the present spirit of money-getting and sacrifice of right principles. He said in part: "The Monroe doctrine, which is the eleventh commandment of this government is the embodiment of national greed and selfishness. A recent secretary of state is quoted as saying that this government in foreign affairs was run on a principle that was a combination of the golden rule and the Monroe doctrine. The man that can associate the two or assimilate them must be a wonderful scientist and mathematician. In following out this doctrine we have been carried away with the theory that our particular form of government was fitted for every stage of development and no more crazy illusion ever entered man's mind. A republican form of government is the worst possible for certain nations, but we have been advancing the alchemy of forcing this on others. As a nation we think we must also advance our religion, the Christian religion even if it takes gunboats to do it, and it has to be spread at the point of the bayonet." Prof. Wheeler also deplored the present money greed and the great combination with their betrayal of public trust.

POLICE BROKE P PROCESSION
(Special to the Bulletin)
St. Petersburg, July 13—Several hundred working men met in the Nevsky Prospekt at 5 o'clock and started toward the winter palace, carrying red flags and singing. The police ordered them to disperse. On refusal they charged the crowd. Two workmen were killed and many injured.

We would suggest that you cut this out

SPORTING NOTES

HOW IT HAPPENED
Referring to the ball game of Thursday evening, the Calgary Albertan says:

In the third attempt this week Calgary defeated Edmonton at baseball by a score of five runs to one, thus capturing the fifth baseball game between these two rivals this season. As there are two more games this week, by Saturday afternoon we can say that "we are seven."

The contest last night was not so much one between Edmonton and Calgary as between Calgary and the elements, and as usual, Calgary won out.

The baseball game was not a good one. Calgary won easily enough, but every few minutes the players were forced to take to the grand stand to keep out of the rain.

As a change in the luck, Calgary sent Edmonton to the field first. It seemed to work satisfactorily, for Rochon, second up, singled. Westerburg worked the pitcher for a base on balls and Rochon scored when Winchester let Donovan's drive to the outfield.

It was one, two three for Edmonton in the first.

Calgary did one better, for when two were out Mullin singled, but was forced at second.

Edmonton got a man on the base in the second and on account of an error by Ford, that man got third, but he was killed at the plate.

Calgary scored in the third. Rochon the great, tripled. Westerburg sacrificed, that was all.

It was one, two, three with some variations in Edmonton's half of the third.

Calgary gathered two in the fourth. Mahaffy sent one to the left garden, which was an unwise act, for Grady was particularly active. Painter singled. Watson singled; Mullin singled scoring Painter. Ford singled scoring Mullin. Rochon reached first on Gleason's error. The bases full and only one out. Westerburg batted onto the left pasture, upon which Crist if properly coached, should have scored. But it was an out and no advantage. Donovan fled to Bradley.

Edmonton got their only tally in the second half of this innings, and in addition to scoring the run gave an exhibition of baby work which is seldom seen in Calgary. Winchester tripled. Wiley singled, scoring Winchester. Bradley followed with a single to left field. Crist fielded it to head off Wiley at third. It was too late, and Painter threw to second, getting Bradley. The decision was comparatively close and the Edmonton men took to the diamond to protest. In the turmoil Riley tried to score but Rochon put it home quickly, Ford putting Wiley out at the plate. Both decisions were comparatively close though not at all in doubt, but at both the Edmonton players protested. Further than that, Ford in making the put out on Wiley, smote him rather severely on the back, and that hurt too. When Jamieson called the next batter, who happened to be Mr. Yeasel, who remonstrates frequently and persistently, the gentleman was not in place, and Mullin put it over three times and that ended the innings.

Though Crist led off with a single in the fifth it amounted to nothing. The Edmonton innings was exactly similar. Dobson leading off with a single.

Calgary scored another in the sixth. Ford singled and stole second. Rochon singled, scoring Ford.

There was nothing doing for Edmonton in the sixth, though Winchester did get first.

The score:

	Calgary	Edmonton

FARMERS' MARKETS

FARMERS' MARKETS
EDMONTON MARKETS
 Hay—Prairie \$8 to \$15; timothy 15 to \$18. Some green hay was on the market Saturday. The demand is not very brisk and the quantity offered is well up to the demand.
 Oats 25c to 27c.
 Straw \$4.
 Potatoes 20c to 25c.

Live Stock.
 Burns & Co. quote beef \$20.00 to \$27.75.
 Veal \$7-\$12 by the lump.
 Hogs, \$6.00.

Produce
 Hudson's Bay Co. quote, eggs, 20c; butter 13c to 15c; venison, 10c; eggs 10c; butter 11c to 15c; McQuiggin & Co. quote eggs 20c; butter 15c to 17c; tub, 12c; Garipley & Leasard quote eggs 20c; butter 15c to 17c; Whitehead & Co. quote eggs at 20c; butter, 12c to 15c.

WINNIPEG MARKETS.
 (From the Commercialist.)

Produce
 Potatoes—Farmers' loads, 40c; carlots on track, 30c; new potatoes 21-22 cents per lb.
 Poultry—Poultry 10 to 12-13c; chickens 11c to 12c; turkeys, 10c to 15c; ducks and geese, 10c to 11c.

Hides—3 1-2c to 1-3c for country hides; sheepskins, shearings, 10c to 20c.
 Wool—Coarse 12c to 13c; fine or medium 13c to 15c.
 Eggs—Scarcely 1-1/2c for fresh.
 Butter—Creamery in plentiful and demand is good. Choice creamery, cream, 21c; bulk, 20c to 21c.
 Dairy tubs bring 12 to 15c.
 Cheese—Ontario and Manitoba make, 12c to 13c.

Live Stock
 Cattle—Heavy shipments of cattle are coming in off the ranches for export, and quite a few "butchers" are moving. Prices are a shade easier this week. We quote, Best butchers' cattle, 4 and 4 1-2c; lower grades, 3 to 4c; good export cattle are today quoted at 3 1-2c; cows, 2 1-2c to 3c; calves, 1 1-2c to 2c. Buyers here assuming freight charges.
 Sheep—There are not many sheep moving, and lambs are very scarce. Choice mutton sheep are worth 5c and lower grades, 4c; lambs, 5c.
 Hogs—are 1-1/2c higher than a week ago. Live hogs weighing from 130 to 250 pounds are bringing 7 1-2c and 250 to 300 pound hogs, 8 1-2c, off cars, Winnipeg.

Reports from Manitoba indicate that some harvesting will be done before the end of this month.
 The indications and reports from every quarter of the west promise a larger grain output than last year, which gives every line of business a hopeful and confident tone.

The United States winter wheat crop is now practically all harvested and probably is the product will be a few million more than last year. This fact coupled with the present outlook of a record-breaking crop of spring wheat throughout the Dakotas, Minnesota, Manitoba, Alberta and Saskatchewan has had a bullish effect and as a consequence prices have declined on the American markets to the extent of 2 1-2 to 3 cents, and in Winnipeg 1 1-2 to 2 1-4 cents.

The early reports of the damage due to the outbreak and blight, which a few weeks ago seemed so serious, upon investigation have fortunately proved comparatively insignificant, and nothing but the most unforeseen contingencies can mar the prospect of a year of plenty and prosperity in the Great West.

The total European production of wheat will be a little over that of last year. Harvesting is practically finished all through Southern Europe and much new wheat has been delivered. In Australia and Argentina, our competitors on the other side of the globe the prospects are good although the crop is not far advanced.

ALBERTA MILLERS' REPORT
 Calgary, Alta., July 14.—The Western Grain Dealers and Millers Association today issued the following crop report. There has undoubtedly been some damage to spring wheat by cut worms in the country north of this place. Not enough, however, we believe, to seriously affect the yield; the trouble seemed to be local and confined to a small area. Spring grains of all kinds everywhere in the province are reported as doing well.

There is some complaint that the weather has been too cold and a demand for warmer weather to push the grain forward. These reports were necessarily mailed three weeks before the compiling of this statement, and since that time the weather has made a radical change in this respect. The past three or four days have been growing weather, just the kind wanted for the crops. The greatest improvement this week is noted in fall wheat. We must revise our figures of the last report on this cereal and place

the percentage at 65 per cent of an average; this is a gain of about 10 per cent in about ten days. A remarkable gain, to be sure, but we believe conditions warrant us in making this increased estimate. Fields of winter wheat that two weeks ago were thought to be worthless have come to the front, stood out, and will, in spite of bad farming, make respectable yields. This is another evidence that Alberta, if given half a snow, will prove herself to be one of the great wheat raising countries. Some winter wheat is now heading out June rainfall, 4 1/2 inches.

GRAIN GROWERS PLEADED
 The executive of the Western Grain Growers association here, a business meeting in the Leiland Hotel, Winnipeg, a few days ago, when there were present, President L. W. McQuiggin, Portage la Prairie; R. C. Henderson, Quiloma; J. W. Seaton, Virden; W. G. Rogers, Carberry; and Secretary, R. McKenzie, of Brandon. The principal object of the meeting was to receive the report of D. W. McQuiggin and J. S. Woods, the representatives of the grain growers who were in Ottawa with a like delegation from Saskatchewan, to express into the necessary changes in the grading and inspection of wheat, before the agricultural committee. Mr. McQuiggin stated that he was well pleased at the reception the association received and reported that practically all the changes they suggested in the grain and inspection act were adopted by the government. The delegation also received the assurance from the department of trade and commerce that when grain is once presented for inspection the inspection must take place and be final.

The grain growers have always been opposed to "doctoring" wheat in transit, and will not rest satisfied until every vestige of opportunity for such "doctoring" is eliminated. The announced intention of the government of appointing a royal commission to investigate the alleged tampering with the quality of our wheat in transit between the terminals at Port William and the British markets, and to ensure into the necessary changes in the grading of wheat to meet the requirements of the British trade and eastern markets is a move that meets the hearty approval of the executive. The only thing needed to make it popular with grain growers is that the personnel of that commission be men in whom the producers have confidence, and who should be producers of grain. This movement was also brought about by the delegation.

CLEANING UP.
 After conferring with the chiefs of the packing establishments at the Chicago stock yards the secretary of agriculture said:

"I find the general condition at the stock yards to be good and everything is being hurried to place the yards in first class condition. An effort is being made to comply with the laws fully."

"I will confer with some of the government inspectors from various cities having packing industries. I shall confer with them as to the time of putting the new law into effect. They will have to make some changes in their operations to comply with this and I am willing to grant them sufficient time to get ready."

RECEIVED MONEY FOR HIS VOTE
 Toronto, July 13.—Judge Winchester's report upon the recent civic investigation was laid on the table at the city council meeting yesterday afternoon in five bulky typewritten volumes, while the findings in themselves occupy 136 pages. His honor, from the evidence, before him, reports that he finds that Dr. Lynd met Mr. Elliott at the Scholes hotel for the purpose of receiving money for his vote. His findings summarized are that Mr. Lynd received money for his vote on Public Brothers' permit. He did not solicit money from the Ontario Sewer Pipe company.

Ex-Ald. Geo. Ramsden is completely exonerated, also Ald. O. B. Sheppard, E. J. Lennex, the city architect, received money by means of false certificates. He was also given presents by the various contractors. The Bennett and Wright's extras were much too large. The Leitch and Turnbull's elevator contract was the result of fraudulent combination. The city paid \$2,295 for nothing in connection with the Metallic Roofing company contract for the market roof; also \$353 more than necessary for the roof on the manufacturers' building at the exhibition.

The council referred the report to the board of control and the city lawyers quired.

FOSTER'S FORECAST

A Washington despatch says: Last bulletin gave forecast of disturbance to cross continent July 3 to 7, warm wave 2 to 6, cool wave 5 to 9. Next disturbance will reach Pacific coast about July 9, cross west of Rockies country by close of 10, great central valleys 11 to 13, eastern states 14. Warm wave will cross west of Rockies about July 9, great central valleys 11, eastern states 13. Cool wave will cross west of Rockies about July 12, great central valleys 14, eastern states 15.

This disturbance and its warm wave will not cause very warm weather while just before and after the storm centre passes unusually cool weather will prevail. Highest temperatures of the year are usually due about the time this storm centre should be in the great central valleys, but I am expecting cool weather instead. My last bulletin stated that the hot wave of July would not be far from July 4 and 22.

Some rains may be expected to accompany this disturbance from July 9 to 14, but I am not expecting much rain within the July drought sections heretofore described, more definitely bounded by a line beginning at Houston, Texas, then by way of Dodge City, St. Joseph, Burlington, Chicago, Cincinnati, Atlanta, Charleston, Jacksonville, Key West, Pensacola, and back to Houston. Within that circle I expect crops to be damaged by the July drought, while outside of it rainfall will be from about 2 to above normal.

Third disturbance of July will reach Pacific coast about July 14, cross west of Rockies country by close of 15, great central valleys 16 to 18, eastern states 19. Warm wave will cross west of Rockies about 14, great central valleys 16, east of Rockies country about July 17, great central valleys 19, eastern states 21.

The important feature of this disturbance will be the recovery from the unusually cold weather, an approach toward the hottest and driest weather of the month and the alarming drought conditions within the drought sections above described. Hotter and dryer will be the rule from July 14 to 22. The most severe storms within the dates of these two disturbances may be expected July 9 to 12.

Magnetism is the immediate cause of weather changes and the changing relative positions of the sun, earth, moon and other planets cause the changes in the earth's magnetism. Heat is now made the basis of all the science that is relative to the local forces. This must be changed and magnetism recognized as the cause; then, not before, will these sciences make progress. Magnetism must also be recognized as a basis in plant life and therefore in agriculture.

TENDERS FOR THE ERECTION OF NORMAL SCHOOL BUILDING, CALGARY, ALBERTA.
 Sealed tenders addressed to the Deputy Minister of Public Works, Edmonton, Alberta, and endorsed "Tenders for Normal School Building, Calgary" will be received up to 12 noon, Monday, July 23rd, for the supplying of all materials and the erection of Normal School Building in accordance with plans and specifications on view in the Department of Public Works, Edmonton, and at the office of the Inspector of Public Works, Armstrong Block, Calgary. The work may be tendered for separately or in bulk for all trades excepting plumbing, heating and ventilation, tenders for which will be called later. Each tender must be accompanied by an accepted cheque payable to the Minister of Public Works, for the amount of 5 per cent of tender. Cheque of the successful bidder, if any, will be retained until the necessary contract and bond are executed and the work completed. The cheque of unsuccessful bidders will be promptly returned. The right is reserved to reject any or all bids or waive any defects.

JOHN STOCKS,
 Deputy Minister of Public Works,
 Dated at Edmonton
 15th day of July, 1906

Moose Jaw will spend 18,000 for school maintenance this year.

Moose Jaw will erect a reservoir for fire fighting purposes.

The National Trust Co., of Toronto, has purchased the Saskatchewan school endowments of \$30,000 for \$2,884.

The homestead entries for the Regina land office for June again broke all previous records, not only of Regina, but of all land offices. The entries last month totaled 1,796 as compared with 1,305 for June last year, an increase of 491. This is the largest number of entries for a single month ever recorded at any land office.

E. B. Hutchison, of Moose Jaw, has been appointed superintendent of Regina city schools at a salary of \$1800 to be increased to \$2400.

The amount of business at the Dominion land office at Battleford is showing no sign of falling off, the largest staff being kept busy attending to the wants of the steady stream of homesteaders arriving by every train. The number of entries up to June 20 was 730 and thirty-five applications for patents were made in the same period, the number of the latter being steadily on the increase and during this time four thousand two hundred letters have been received and sixteen hundred and twenty sent out.

1,280 acres of farm land near Macleod sold the other day for \$29,000 cash.

The Government of Saskatchewan is proposing to begin a series of investigations in that province which will include standards 7 and 8 and the university first year courses. By this means it is hoped to lay the foundation for the work of higher education.

At the time of the agricultural fair in Regina it is proposed to have a meeting of as many of those interested in the preservation of game as possible to consider how the game laws may be improved and to discuss matters for the better carrying out of the laws. It is probable that steps will be taken at the time to form a Game Preservation Association for Saskatchewan.

Regina Standard: W. Vance has returned from Edmonton where he has resided since September last. Mr. Vance has left the employ of the Alberta Government and will take a position here. He was the first clerk of the old Northwest Government staff to go west and was the first clerk on the staff of the Alberta public works department to enter upon his duties.

THE ALBERTA CROPS.

The following report has been given out by the C.P.R. with regard to crop conditions on the western division, week ending July 10, 1906:

Alberta—Perfect weather during past week, all crops growing very quickly.

Crossfield—One heavy rain during week, balance fine weather; crops in good condition, heavy yield expected from present outlook.

Oids—Crops in first class condition, no damage, weather warm and showery.

Bowden—Weather warm with several showers, grain making good progress and showing up in good shape, some of it heading out. Prospects good for a big crop.

Innisfail—Weather warm and showery, a great deal of the barley heading out, and all grains continue to do well.

Penhold—Weather warm and fine, average height of the grain fourteen inches, in good shape.

Red Deer—About five hours rain during week, crops looking excellent, standing about twelve inches high.

Blackfalds—Weather favorable, all grains doing well.

Lacombe—Crops in splendid condition, about seven inches high, weather favorable, with one heavy shower.

Alix—Weather very warm with a few thunder storms, crops in test of condition, average height ten to twenty inches, in some places beginning to head out.

Stettler—Grain about fifteen inches high and doing fine, weather very warm, with one heavy shower.

Camrose—All crops in first class condition and prospects excellent.

Bawlf—Weather very warm, with heavy showers, wheat and barley in places heading out nicely. Prospects good.

Daysland—Weather favorable, all grains making rapid progress, average height twenty inches.

Okotoks—All grains growing rapidly, earlier varieties barley and fall wheat heading out. Every indication of heavy crop.

High River—All crops in excellent condition, average height, eighteen to twenty-two inches, weather warm with about two hours heavy rain.

Nanton—All grain growing fast, wheat about eighteen to twenty-five inches high, other grains fourteen to eighteen inches high, weather warm with about four inches rain.

Slavely—Fall wheat well headed and spring grain could not be better weather favorable, a considerable amount of plowing being done.

Leavings—Fall grain headed out and looking fine, spring wheat and all other grain growing rapidly.

Taber—Weather warm, all grain looking well and in greater part of district headed out. Average height fifteen to twenty-four inches.

Lethbridge—Weather very warm, all crops making good progress.

Mackay—Weather very warm, with some rain, no damage, average height twenty inches, some grain heading out. Prospects excellent.

Fincher—Weather clear and fine, with one shower during past week; wheat two feet high and, starting to head out, oats twelve to eighteen inches.

Cowley—Winter wheat in some places two feet high and heading out. Spring wheat ten to twelve inches in height and growing rapidly. Weather very warm.

WRECK ON THE C. P. R.

Port William, July 10.—A serious wreck occurred on the C. P. R. near Niblock on Sunday night and it is little short of miraculous that a great loss of life did not take place. The wreck occurred to an eastbound freight about a mile from Niblock at 11 o'clock that night. Two boarding cars which were being moved from English to Dexter, and which contained over forty Italians, jumped the track, one car telescoping the other, and two freight cars piling up on top of them, but strange to say, not a person was hurt.

THE DOUGLAS CO., LTD.

LOCAL

—W. H. Phillips has opened a real estate office in his new block on

—Proba-Saskatchewan and Alberta, fine today, and on Sunday a little warmer.

—The highest salary paid first class male teachers in Alberta is \$1,500, the lowest is \$600. The average is \$732.

—Mr. P. H. Thibideau, inspector of schools of Wetaskiwin arrived in the this morning.

—Mr. Richard Secord has taken out a permit to erect a residence estimated at \$25,000.

—Chief Evans, of the police department took in over \$6000 for issuing various licenses during the month of June.

—The police department collected \$543 in fines during the month of June for violation of the city bylaws.

—Rev. C. H. Huestis and Rev. A. S. Tuttle exchange pulpits tomorrow morning.

—J. R. Brenton and A. P. Cole of the city Coal Co., returned last evening from Lethbridge where they have been on a business trip.

—The Edmonton ball team were to have returned last evening, playing Wetaskiwin en route, but the program was changed. The team defeated Calgary last night and play them again this afternoon.

—A special evangelistic meeting will be held in City Hall Sandison Block on Sunday at 7 p.m., to be addressed by Mr. Alexander Marshall from Glasgow, Scotland and Mr. J. J. Rouse. All are cordially invited.

—A Calgary despatch says the Edmonton ball team plays in Calgary again tonight and tomorrow afternoon.

The program has apparently been altered as the boys were to return home today, playing Wetaskiwin this evening.

—The first white or polar bear skin that has been seen in Edmonton, has lately arrived from England. It was purchased by McDougall and Secord.

The pelt was originally taken in the far north and Mr. Secord secured it before it was taken over to England to be tanned. It is probably worth from \$150 to \$200.

—Lacombe Globe: Mr. Wilkins, president of the Blindman Electric Light & Power Co., and Mr. Palland, of the Central Alberta Electric Co., Wetaskiwin, were in town yesterday. To a Globe representative Mr. Wilkins said that the contract for the power house was let and that as soon as the poles can be delivered the work of installing the electric light system would begin.

He stated that the company hopes to have the light turned on in Lacombe about the middle of October.

He stated that the company hopes to have the light turned on in Lacombe about the middle of October.

SOCIAL AND PERSONAL

Miss M. B. McKinnon and Miss L. J. Smith left yesterday for a two months' holiday trip to the Pacific coast.

Clarence J. Bach returned yesterday from Brandon where he has been attending business college.

OIL BORING IN NORTH

Alfred Von Hammerstein, promoter of the Athabasca Petroleum Syndicate, arrived in the city last night from the east. He leaves next week for Fort McMurray, on the Athabasca river, where he will have charge of the borings for petroleum which are now in progress in that country. The Count is also taking with him Messrs. Wm. Blackwell and A. Blackwell, of Petroleum, drillers of considerable experience. They have with them about 20 tons of boring machinery and will open up new borings in the north country. The development of the borings in the north is now of considerable proportions and the operations will be carried on throughout the summer and fall. It is expected that before the snow flies the drillers will have succeeded in striking a rich flow of oil, as indications of the presence of the petroleum are abundant.

WON THE CUP

The Edmonton Cricket Club won the Central Alberta Cup yesterday in Red Deer.

Yesterday the club went down to Red Deer and played off the finals in the challenge contest with Pine Lake, winning by 49 runs. The score was Edmonton 96, Pine Lake 56.

The features of the victory were the splendid bowling of Chaney and the equally fine batting of H. R. Mountfield and Inspector Worsley, whose effective play never left the issue of the contest in doubt.

The Central Alberta Cup is donated by the citizens to Red Deer as a challenge cup to be competed for annually in Red Deer. It is of beautiful design and workmanship, and is valued at seventy-five dollars. It is on exhibition in Jackson Bros' window, on Jasper avenue.

was really pleasant to see how joyful the crowd was before the game. They planked down their two bits at the gate and came in looking as if they were just about to participate in a strawberry festival. They ranged themselves on the benches behind the poultry netting with looks of pleasant anticipation and got ready to cheer. But the cheer never came and the smiles died from their faces.

It was the biggest kind of a false pretense at the national game that was ever handed out to a bunch of Edmonton rooters. Not that there was such a big score. That's impossible in this kind of a game. It was a big frolic for the red shirt men, and their combination drew circles around the Caps, and made them look like thirty cents at a bargain counter.

Shaw was in goal, and pshaw he wasn't up to much. It was his first try out, and with more practice will make a reputation of himself, and will be a joy to the team. He was nervous last night.

Percy Glass, Powers and a couple more tried occasionally to figure out a combination that would land the sphere in the meshes, but it was no go, and a small chap in the top row expressed the sentiments of the crowd in disgusted tones, "Oh, you can't score."

The game about the third quarter developed into a rag exhibition. Once a Strathcona man and a chap in Irish green found themselves on the award together, and they immediately set to with their fists. And while the small boys and pugilistic youths crowded on the field, the society gathered on the grand stand, disgusted with the turn of things, quietly slipped out through the gate under cover of the noise.

There was another exciting feature of the game. At the foot of the bleachers there is a foot or two of open space beneath the wire netting. The sphere had a habit of coming in that direction frequently, and on a wide shot it would go bounding in under the benches in a most aggravating way, ter it. The referee would blow his whistle and the players would emerge from beneath the spectators, with deathlike grips upon the ball and each other's hair.

Some of the Strathcona players are certainly endowed with a liberal share of the pugilistic instinct and a desire to mix it up. They were so insanely joyful last night that they forgot their manners and acted like beasts.

Yes, it was a great game. It took Strathcona 14 out of the 15 minutes of the first quarter to score their starter. The others were scored in 13 minutes and 23 minutes respectively.

Glass, Powers and Bolander are worthy of special mention in the despatches, for conspicuous bravery and an earnest desire to make the game worth the money. "Gars" Morris did a few stunts but that was all the fireworks down on the programme and the game finished up with three howls for the vanquished Caps.

Alberta Agencies Ltd.

Next door to the Merchants Bank, Jasper avenue.
Stages leave their office every Tuesday and Friday at 8 a.m.

A CINCIN FOR THE RED SHIRTS

Strathcona 3, Edmonton 0.

No, it wasn't lacrosse, it was a nightmare.

It was a shame to take the money. That's what the small boy said, and he never hit so near the truth before. It
